BATHTUB AND COUNTER TOP REFINISHING CARE & MAINTENANCE

The following instructions explain the care and maintenance of the refinished surfaces of your kitchen counter, bathroom vanity, and/or bathtub. Please observe the following:

General Cleaning Instructions:

Please use the recommended cleaners below with a soft wash cloth or sponge. Do not use scouring pads or abrasive cleaners, which will dull the surface.

<u>Recommended Cleaners:</u>	Formula 409 Fantastic Dish Washing Soaps: Dawn, Joy, Ivory, etc.	Dow Windex Bon Ami	Scrub Free Mr. Clean
<u>*Do Not Use:</u>	Comet or Ajax Mats with suction cups and adhesives Ammonia, cleaners containing ammonia	Steel Wool / Brushes Harsh Abrasives Scratch Pads	Soft Scrub Bleach

Please Note

1. Do not drop sharp or heavy objects on the finish, which may cause it to chip. Contact Cal Specialties Bath Refinishing immediately for repairs if this should occur. Failure to contact us in a timely manner can result in further damage.
2. Faucets must be properly maintained, leaky faucets will erode the new finish, causing damage and will void the warranty.
3. **Do not use bath mats with suction cups.** Most mats will produce a reaction with the new surface when subjected to hot water and will lift the coating.
4. Do not place hot pots or pans directly on kitchen counter surface and do not cut on kitchen counters.
